

The only station I and my husband listen to is K-Love. We also find the K-Love stations whenever and wherever we travel. Without this station, we would not have the quality radio upon which we and many of our friends have come to rely. It is OUR station in every sense of the word. The people are an integral part of our faith lives along with the programming they provide. Our community is in dire need of stations which provide wholesome entertainment. There is a distinct lacking in wholesome values in most of the other stations I've heard in this city. Our city is high in crime, high in unemployment and low in hope. This station can and does bring hope to the people of this area and should never be replaced. Please assure us that this will not happen by making a wise choice. Thank you.
